GO ANYWHERE TAKE EVERYTHING

NO MORE LADDERS

A common complaint about camper trailers with rooftop tents is that you have to use a ladder to enter and exit your tent.

With the Xplorer, the game has totally changed. It's the first camper trailer in Australia to feature a staircase integrated into the trailer itself*, making it much safer and less strenuous to access your tent.

It's one of the many clever touches which sets Hardkorr camper trailers apart from the rest.
