CAMPERS

## BUSHMASTER X HKC-3600

The Bushmaster 3600-X is a compact, highly capable off-road camper trailer which is perfect for couples and solo travellers. It has been engineered with ease of use in mind, and makes clever use of space to maximise storage without becoming bulky.

The 3600-X boasts superior engineering and toughness, plus quick set up and huge storage for its size, so you can explore further with confidence.

LIFE WITHOUT LIMITS

## HEAVY DUTY SUSPENSION

The 3600-X is a highly capable unit off the tarmac.

With gas big bore shock absorbers, fully independent suspension, mud-terrain (MT) tyres and heavy duty alloy wheels, it will survive any terrain from corrugated country roads to rutted-out bush tracks.

You can tow it with basically any off-road capable vehicle, and sometimes you'll forget it's even there!

GO ANYWHERE.  
TAKE EVERYTHING.

## DESIGNED IN AUSTRALIA

Our team has been designing camper trailers in Australia for over a decade, and the latest Hardkorr range of trailers is a perfect example of why this is important.

When you are heading off-road, you need a camper that is tough and agile enough to handle everything you throw at it - something that's been battle-tested in actual Australian conditions.

We design our camper trailers to survive and thrive in our unique environment, whether you're exploring vast deserts, dark rainforests, rutted bush tracks or our beautiful beaches.

CAMPERS

## FAMILY SIZE KITCHEN

In the family home the kitchen is the hub of activity - why shouldn't this be the case when you're camping?

Thanks to the huge 270 degree awning and the smart layout of the kitchen, the 3600-X ticks all the boxes for the modern camper.

With a Dometic gas two-burner stove, stainless steel sink and twin water connections, cooking is a pleasure.

Plus, thanks to the easy access storage compartments, your food is easily accessible when you need it!

## CLASS-LEADING STORAGE

When it comes to camper trailers, there simply aren't many on the market that consider storage. On the other hand, the Bushmaster 3600-X has been designed to maximise available storage space.

Despite its compact size, the Bushmaster 3600-X boasts over 1,600L of storage and space for up to a 69L fridge, meaning you won't need to compromise when deciding what to bring on your trip. You can even carry two push bikes on the rear hitch point!

Best of all, you can access all of this storage without having to set up your camper trailer.
